## THE RAVEN TOWER

A repurposed metal warehouse, the Raven Tower was built in the 1970s as a metal fabrication shop with the ultimate of bachelor pads high above it. Since then the Raven Tower bar, directly adjacent to the new White Oak Music Hall, has undergone a swank transformation thanks to interior designer Gin Braverman and architect Troy Schaumit. The bar features an 1,800-square-foot enclosed seating area with a 3,000-square-foot expansive outdoor deck overlooking Little White Oak Bayou. Offering a full lineup of 24 beers on tap, dozens more in bottles and an enviable spirits selection, the Raven Tower is an open-air, slower-pace establishment where guests can grab a beer, throw some horseshoes and enjoy live music in a casual environment.
